1. Claims of "class-leading", "largest in class", "fastest in class" and "only standard in class" rely on public mass-produced electric large sedan data, cut-off date: December 1, 2025.

2. XPENG P7+ data herein are from XPENG internal testing; variations may occur in actual use.

3. The aforementioned functions and configurations are not standard for all trims; details are subject to official specs of the relevant country/region.

4. Charging time is estimated in ideal fast-charging scenarios; actual time depends on charging equipment, power grid and battery condition.

5. Obey traffic regulations and drive carefully. Intelligent driving functions are assistive only and cannot fully replace the driver. Always watch road conditions to avoid risks.
